## **A Sabbatical Analyzing LMC Data and Improving LMC Success Rates for First Generation Students**

Barbara Boschmans

Northern Arizona University

### **Abstract**

My 2017-2018 sabbatical focused on organizing and collecting LMC data on the success rates of students in LMC courses from 2012 to 2017. This talk will focus on first generation students and their Pass/ABC rates. I will discuss what is already being done for these students and what will be done to improve their success as a result of this study.
