

Dr. Andrew Wiles, famous for proving Fermat's Last Theorem in 1994, was born one day before this FAMUS day in 1953.

"...suddenly, totally unexpectedly, I had this incredible revelation. It was the most important moment of my working life...it was so indescribably beautiful, it was so simple and elegant, and I just stared in disbelief for twenty minutes..."

-Wiles describing the moment he "got" the proof

## FAMUS [Friday Afternoon Math Undergrad Seminar] meets:

- every Friday
- at 3:00 p.m.
- in Room 164
- of the Adel Mathematics Building

**[and snacks are always served!!!!]**

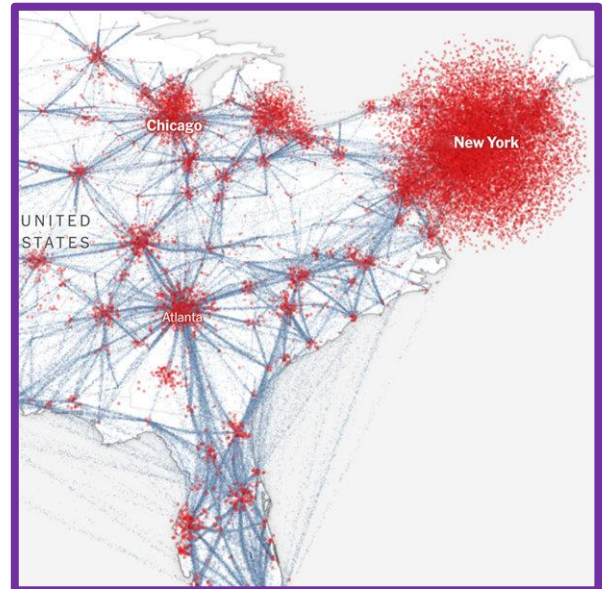

### April 12<sup>th</sup> topics

## Disease Surveillance & Measles Transmission

[presented by  
Avery Drennan &  
Alexander Nez,  
respectively]

### April 12<sup>th</sup> guest

**NOBODY**

**ALL MATHEMATICS MAJORS ARE ENCOURAGED AND EXPECTED AND ENCOURAGED TO ATTEND**
