

Andrew Wiles, the British mathematician who proved Fermat's Last Theorem, was born on this FAMUS day in 1953.

"... suddenly, totally unexpectedly, I had this incredible revelation. It was the most important moment of my working life...it was so indescribably beautiful, it was so simple and so elegant, and I just stared in disbelief for twenty minutes..."

-Wiles describing the moment he "got it"

**FAMUS [Friday Afternoon Math Undergrad Seminar] meets:**

- every Friday
- at 3:00 p.m.
- in Room 164
- of the Adel Mathematics Building

**[and snacks are always served!!!!]**

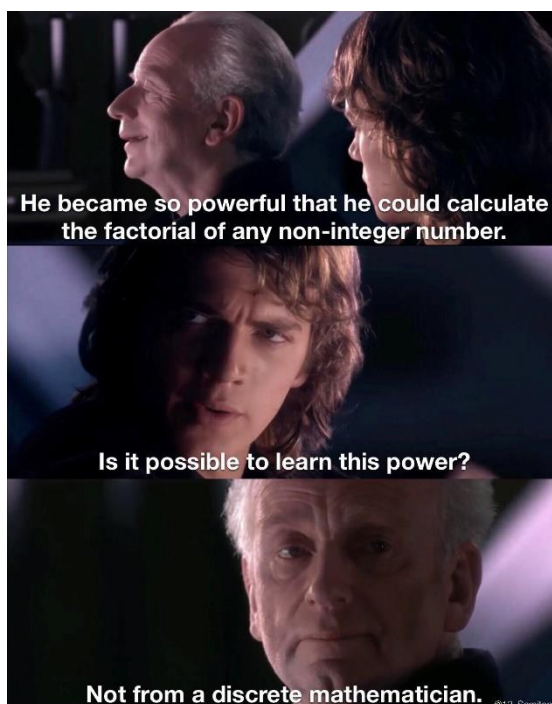

**April 11<sup>th</sup> topic**

## The Gamma Function

**[presented by  
Tyler Brock]**

**April 11<sup>th</sup> guest**

**reverse  
guest**

**ALL MATHEMATICS MAJORS ARE ENCOURAGED  
AND EXPECTED AND ENCOURAGED TO ATTEND**
