

Department of Mathematics and Statistics

Colloquium

Tuesday October 1

AMB 164 4:00 - 5:00 pm

## **The Use and Misuse of Worksheets in the Mathematics Classroom**

Angie Hodge

Northern Arizona University

### **Abstract**

Join this colloquium for an interactive session on ways in which worksheets can be used differently in the mathematics classroom. In this session, we will be examining how it is not only the materials used in a classroom that matter, but also how they are used that matters. Please bring a writing utensil to the session.
